

UNO_ERP Executive KPI Dashboard Proposal

24 High-Impact Key Performance Indicators for Tour Operator Excellence & Profit Optimization

Prepared for: Executive Leadership & Owner of UNO | August 2026

1. Operational Efficiency

6 KPIs focused on departure readiness, rooming accuracy, guide utilization, and supplier SLAs.

2. Financial & Profitability

6 KPIs tracking excursion sales, guide commission efficiency, cost/pax variance, and gross margin.

3. Risk & Governance

6 KPIs monitoring cash remittance lags, unassigned resources, audit overrides, and passenger compliance.

4. Growth & Opportunities

6 KPIs measuring client retention, pax load factors, destination yield, and AI resolution rates.

Category 1: Operational Efficiency KPIs

OPERATIONS

KPI #1: Departure Readiness Gate Pass (%)

Target: 100% within 72h | Formula: $(\text{Ready Tours} / \text{Total Upcoming Tours}) \times 100$

Prevents last-minute emergency calls, missing guides, or unconfirmed hotel vouchers before departure.

KPI #2: Rooming List Lock Accuracy (%)

Target: > 98% | Formula: $(\text{Confirmed Roomings} / \text{Total Rooming Requests}) \times 100$

Eliminates single/double rooming errors, hotel check-in delays, and unexpected room surcharge penalties.

KPI #3: Guide Capacity Utilization (%)

Target: 85% - 90% | Formula: $(\text{Assigned Tour Days} / \text{Total Available Days}) \times 100$

Maximizes top-tier guide productivity while avoiding burnout or idle retainer costs.

KPI #4: Bus Seat Load Factor (%)

Target: > 85% | Formula: $(\text{Total Tour Pax} / \text{Coach Seating Capacity}) \times 100$

Optimizes coach size selection (e.g. 35-seat vs 50-seat bus) to cut transport costs per pax.

KPI #5: Supplier Confirmation Velocity

Target: < 24 Hours | Formula: Avg Hours from Booking Request to Supplier Confirmation

Accelerates client proposal turnaround and locks in competitive hotel group rates early.

KPI #6: Automated Document Ratio (%)

Target: > 95% | Formula: $(\text{System-Generated Vouchers \& Flight Lists} / \text{Total Docs}) \times 100$

Saves operational staff 15+ hours weekly by automating PDF voucher & rooming list exports.

KPI #7: Excursion Sales Penetration (%)

Target: > 75% Pax | Formula: $(\text{Passengers Buying Excursions} / \text{Total Tour Pax}) \times 100$

Measures on-site sales effectiveness and driver/guide excursion promotion enthusiasm.

KPI #8: Excursion Yield per Pax (€)

Target: > €120 / Pax | Formula: $\text{Total Excursion Sales Revenue} / \text{Total Tour Passengers}$

Identifies high-performing tour itineraries and top revenue-generating optional excursions.

KPI #9: Guide Commission Efficiency (%)

Target: < 15% of Gross Margin | Formula: $(\text{Total Guide Commission Paid} / \text{Excursion Gross Margin}) \times 100$

Ensures guide incentives drive profitable excursion sales while protecting net DMC margins.

KPI #10: Cost per Pax Variance (€)

Target: $\pm 2\%$ of Budget | Formula: $\text{Actual Settled Cost per Pax} - \text{Budgeted Cost per Pax}$

Flags cost overruns in hotel night rates, city taxes, or entrance fees before final settlement.

KPI #11: Uninvoiced Service Cost Ratio (%)

Target: < 1% | Formula: $(\text{Uninvoiced Supplier Services} / \text{Total Operational Expenses}) \times 100$

Prevents unbilled supplier expenses from slipping through without client re-invoicing.

KPI #12: Gross Margin per Tour (€ & %)

Target: > 22% Net Margin | Formula: $((\text{Total Invoiced Revenue} - \text{Total Costs}) / \text{Total Revenue}) \times 100$

Provides the owner with instant visibility into which projects and tour series yield highest net profit.

KPI #13: Guide Cash Remittance Lag
Target: < 48 Hours post-tour | Formula: Avg Days from Tour End Date to Excursion Cash Bank Deposit
Enforces Governance Rule 4 (Separate Money Flows) and accelerates cash flow collection.

KPI #14: Excursion Cash Discrepancy (%)
Target: 0.0% | Formula: |Guide Reported Sales - Actual Bank Deposit| / Total Sales
Detects cash leakages, currency conversion errors, or missing excursion sales receipts immediately.

KPI #15: Unassigned Tour Resource Ratio
Target: 0% within 7 Days | Formula: (Tours Missing Guide/Bus/Hotel within 7 Days / Total Tours) × 100
Eliminates operational panics and quality degradation on upcoming departures.

KPI #16: Passenger Data Completeness (%)
Target: 100% 7 Days Prior | Formula: (Passengers with Valid Passport & Flight Info / Total Pax) × 100
Prevents hotel check-in refusal and airport transfer miscommunication.

KPI #17: Supplier Payment On-Time Rate
Target: > 98% | Formula: (Invoices Paid Within Credit Terms / Total Supplier Invoices) × 100
Protects DMC reputation and secures preferred hotel room block allocations.

KPI #18: Audit Trail Exception Count
Target: < 5 per Month | Formula: Total Manual Price/Fee Overrides Logged in AuditLogs
Ensures full administrative accountability and transparency across all financial overrides.

KPI #19: Client Repeat Booking Rate (%)
Target: > 80% Seasonally | Formula: (Repeat Tour Operators / Total Active B2B Clients) × 100
Measures long-term DMC client satisfaction and recurring contract stability.

KPI #20: Project Pax Load Factor (%)
Target: > 90% Allotment | Formula: (Actual Booked Pax / Contracted Project Capacity) × 100
Helps negotiate volume discounts with hotels and transport providers.

KPI #21: Top Destination Margin Share (%)
Target: Monitor Mix | Formula: Gross Profit from Top 3 Cities (Prague/Vienna/BVP) / Total Profit
Identifies geographic expansion opportunities and high-yielding tour itineraries.

KPI #22: Guide Performance NPS Score
Target: > 4.8 / 5.0 | Formula: Average Passenger Rating per Assigned Tour Guide
Ensures high tour quality, passenger delight, and positive repeat trip reviews.

KPI #23: Pre/Post Hotel Night Conversion
Target: > 15% Pax | Formula: (Passengers Booking Extra Nights / Total Passengers) × 100
Unlocks easy high-margin hotel commission upsells for early arrivals.

KPI #24: AI Copilot Instant Help Rate (%)
Target: > 90% | Formula: (Queries Resolved by AI Copilot / Total Staff Inquiries) × 100
Reduces onboarding time for new operators and answers how-to questions 24/7.

Phase 1: Immediate Wins (Sprint 1)

Build Top 6 Core KPIs on Executive Dashboard: Departure Gate, Cash Remittance Lag, Gross Margin %, Excursion Yield, Cost/Pax Variance, Unassigned Resources.

Phase 2: Operational Automation (Sprint 2)

Integrate Automated Alerts & AI Copilot Monitoring: Automated email notifications for readiness breaches and cash remittance delays > 48h.

Phase 3: Advanced Analytics & BI (Sprint 3)

Deploy Full 24-KPI Interactive Executive Dashboard with Export to PDF/Excel for Monthly Board Reviews.
